**Bending:** The ability to bend trimboards and profiles varies greatly based on board thickness and width, profile shape, bend radius, and heat source type. CertainTeed recommends reviewing our installation instructions or using a professional PVC bending resource.

Special Order Program: CertainTeed has the ability to manufacture products in different lengths and widths that are not shown in this Specification Guide. We would be glad to discuss opportunities. Please contact your CertainTeed Territory Manager for product guidelines, minimum quantities and pricing.
