**BUILDING PRODUCTS
FOR THE PROFESSIONAL.**

Since 1944, TAMKO® has been producing building products for the professional. Our complete line of roofing and decking products is designed to offer contractors a competitive advantage of beauty and performance.

TAMKO provides the products you need to give home and business owners the look they want. It's a reputation we've worked hard to build since 1944. Our professional-grade materials offer professional-grade results—and that's what matters most at every phase of your project.

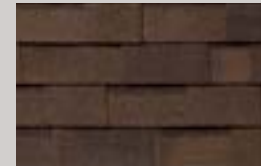

Take a look inside to see the TAMKO Difference.

TAMKO® OFFERS A POWERFUL COMBINATION OF CUT, COLOR AND COVERAGE.

Give home and business owners the dramatic aesthetics, protection and performance they desire in a roof.

1. Cut Dynamic Cuts for Added Dimension

TAMKO's complete lineup of shingles adds a striking new dimension to complement the look of any customer's home.

- Heritage® Series shingles replicate the natural aesthetics of wood shakes
- MetalWorks® steel shingles are built for performance and offer three dramatic looks—slate, tile and wood
- Elite Glass-Seal® and Glass-Seal shingles are economical and reliable

MetalWorks® StoneCrest® Tile

2. Color A full palette of distinctive choices

Discover a full range of versatile colors to give customers the look they want. All TAMKO® shingles feature striking color palettes that range from classic to contemporary to dramatically bold.

In 1995, TAMKO introduced vibrant tones to the roofing industry with the launch of America's Natural Colors®

TAMKO Heritage® shingles offer a unique granule mix and distinct color drops.

MetalWorks shingles offer ENERGY STAR® qualified "cool colors."

3. Coverage Performance and protection

Beyond beauty, home and business owners want a product that provides excellent protection. That's why contractors choose TAMKO—because they know TAMKO roofing products offer professional-grade performance.

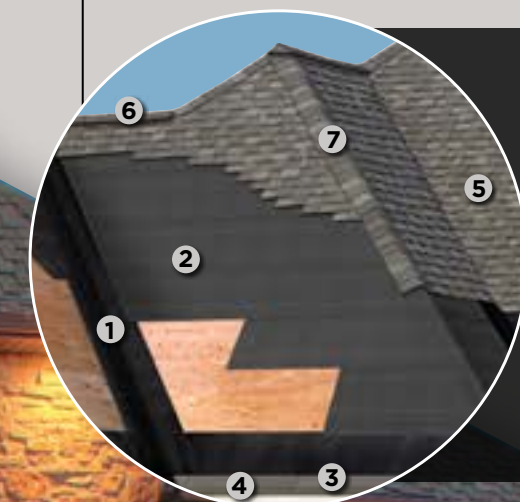

Longest Up-front Protection Available¹

Heritage Series shingles come with a Limited Warranty² with the longest up-front protection available¹. It's not the length of the limited warranty that matters most—it's the length of the Full Start period. With their 15- to 20-year Full Start period, Heritage Series shingles offer the longest up-front protection¹ vs. competitors.

Complete Roof Performance

To further enhance roof performance, TAMKO offers many additional products to help protect homes from the elements.

TAMKO's Complete Roof Performance Product Line

- 1 Ice & Rain Protective Underlayments
- 2 Underlayments
- 3 Shingle Starter
- 4 Cements & Sealants
- 5 Heritage® Shingle Options
- 6 Ventilation
- 7 Hip & Ridge Shingles

HERITAGE® *Vintage*®

LAMINATED ASPHALT SHINGLES

ADD DISTINCTION WITH AN UNMISTAKABLE LOOK.

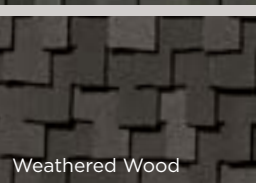

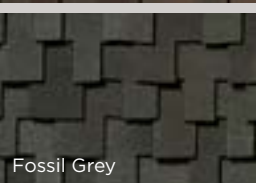

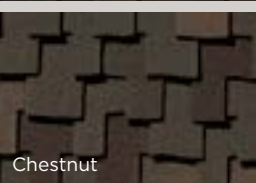

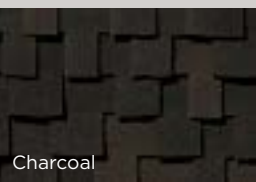

With their striking cuts and angular lines, Heritage® Vintage® Laminated Asphalt Shingles create a dramatic effect that will leave a memorable impression on home and business owners. The Vintage cut enhances the natural shadow to simulate the dimensional look of wood shakes. Vintage shingles offer the longest up-front protection available¹ with a 50-year Limited Warranty², including a 20-year Full Start Period. They also come with a 10-year Algae-Relief—Algae Cleaning Limited Warranty³. Five available colors enable you to personalize the look⁴ and complement the architectural style of any home.

METAL PROTECTS. METAL BEAUTIFIES. METALWORKS®

MetalWorks® steel shingles offer the classic looks of slate, wood and tile with UL Classification as to Impact Resistance Class 4 (UL 2218)¹. An ENERGY STAR® qualified product, MetalWorks shingles are also listed by the Cool Roof Rating Council (CRRC)², delivering the solar reflectance that characterizes cool roof products. MetalWorks steel shingles come with a 50-year Limited Warranty³, including a 25-year Full Start Period. Talk about a beautiful option.

Save on cooling costs with MetalWorks® Shingles.

All MetalWorks shingles are ENERGY STAR® qualified and can help lower cooling costs through the efficiency they provide⁴.

When installed properly, this product may help reduce cooling costs. Actual savings, if any, will vary based on geographical location and individual building characteristics. Consult your product manufacturer, roofing contractor or call 1-888-STAR-YES (1-888-782-7937) for more information. ENERGY STAR® only valid in the U.S.

¹ Compliance testing for UL 2218 Class 4 impact resistance occurs in a laboratory setting and may not be equivalent to real-world exposure to weathering conditions, including hail storms. TAMKO does not warrant against damage by hail. See TAMKO's Limited Warranty for complete details.

² CRRC only valid in the U.S.

³ To obtain a copy of the Limited Warranty, visit us online at tamko.com or call us at 1-800-641-4691.

⁴ Cooling cost savings, if any, will vary depending on the individual structure to which the material is applied.

COMPLETE ROOF PERFORMANCE

When you become a TAMKO® Pro Certified Roofing Contractor*, you gain a competitive advantage for your business through custom marketing materials, access to lead-generating tools, and the ability to offer customers our best Limited Warranty on Heritage® Woodgate® and Vintage® projects.

*TAMKO does not warrant the installation and/or workmanship of TAMKO Pros and excludes damage caused by improper installation or installations not performed in strict accordance with TAMKO's application instructions.

COMPLETE ROOF PROTECTION IN ALL THE RIGHT AREAS.

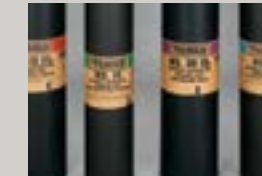

When you choose TAMKO's complete line of products to protect the critical areas of a customer's roof, you can be confident you're installing professional-grade products. Our portfolio of products—from cements and sealants to underlayments to shingles—work together to further protect homes from the elements. And, because all Heritage® Series shingles come with a Limited Warranty¹ offering the longest up-front protection available²; you can instill even more peace of mind in home and business owners.

¹To obtain a copy of the Limited Warranty, visit us online at tamko.com or call us at 1-800-641-4691.

ENHANCE THE PERFORMANCE FROM START TO FINISH.

Laminated shingles by TAMKO® create striking beauty to help enhance a home's curb appeal. Choosing to complement the shingles with quality TAMKO accessories will reinforce their beauty and help provide protection. Preformed starter course shingles are used to start the first course of shingles, while preformed Hip and Ridge shingles provide the finishing touch.

MORE OPTIONS FOR STARTING YOUR ROOFING APPLICATION RIGHT.

TAMKO® offers a complete line of synthetic, fiberglass-reinforced and organic roofing underlayments for use prior to the application of shingles. Tam-Shield® and Synthetic Shield Underlayments are lightweight, mechanically fastened, synthetic options. Self-adhering TW Metal & Tile Underlayment helps provide secondary protection against water penetration after installation of a metal roofing system. And self-adhering Moisture Guard Plus® helps prevent damage from ice damming and windblown rain. TAMKO SA Base & Cap, SuperX™ underlayments and saturated organic felt options are also available.

IMPORTANT: Follow all proper fall protection procedures in accordance with OSHA regulatory requirements—including the use of personal fall protection devices when working on a roof. Applicator safety is of utmost importance.

TAMKO's MSDS states that personal protection devices including, without limitation, gloves should be utilized when installing TAMKO products that contain asphalt.

AS SIMPLE AS BLACK AND WHITE: 100% ASBESTOS FREE.

The TAM-PRO® and TAMKO® lines of Asbestos-Free Cements and Coatings are formulated for performance and ease of application. TAM-STAR and TAM-GUARD Asbestos-Free White Elastomeric Coatings help protect from harmful ultraviolet and infrared radiation, and their highly reflective surfaces may help enhance a building's savings on cooling costs. The TAM-STAR coating is an

ENERGY STAR® product¹. Both TAM-STAR and TAM-GUARD coatings are CRRC rated².

¹ When installed properly, this product may help reduce cooling costs. Actual savings, if any, will vary based on geographical location and individual building characteristics. Consult your product manufacturer, roofing contractor or call 1-888-STAR-YES (1-888-782-7937) for more information. ENERGY STAR® only valid in the U.S.

WATERPROOFING

TW Window & Door Flash

PROVEN WATERPROOFING PROTECTION WHERE IT'S NEEDED MOST.

TAMKO® SBS-modified waterproofing products feature peel-and-stick application for ease of use and excellent adhesion for outstanding protection. Options are available both for above- and below-grade applications. TW-60 is a flexible sheet waterproofing membrane that is well-suited for below-grade applications such as foundation walls and ICF forms as well as above-grade applications including breezeways and balconies. TW Window & Door Flash membrane is well-suited for above-grade applications to help seal window and door perimeters.

Ideal for above-grade uses on balcony and breezeway construction projects. TAMKO's MSDS states that personal protection devices including, without limitation, gloves should be utilized when installing TAMKO products that contain asphalt.

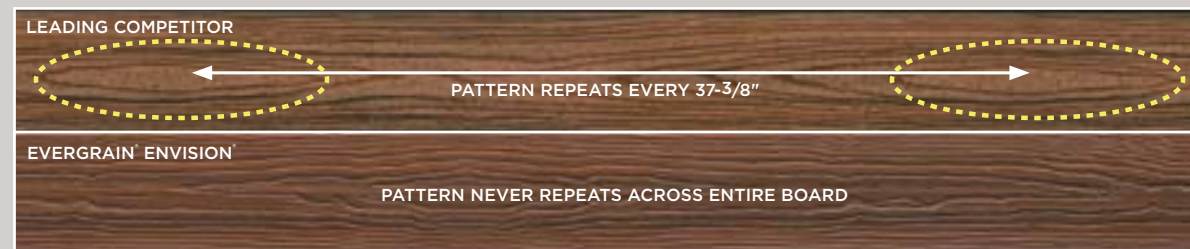

The beauty of a composite deck isn't measured by a single deck board. T.R.U.E. beauty comes from seeing the entire deck. The colors. The grains. The patterns. All working together to produce a harmonious look. That's EverGrain.

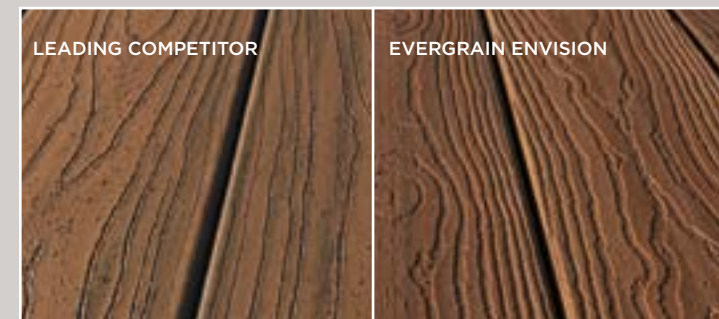

T. is for True. The unique color variations of each EverGrain® Envision® deck board work together to produce a harmonious look with natural depth and dimension.

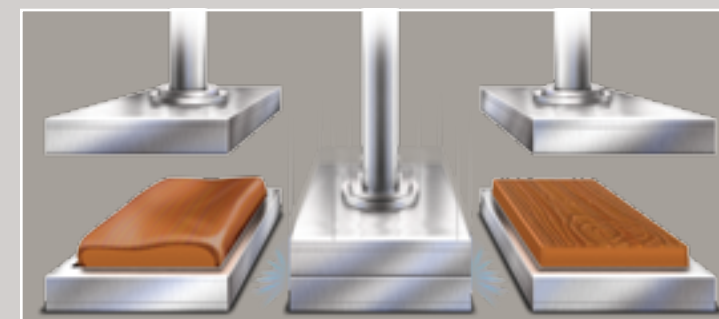

R. is for Random. EverGrain's random grain patterns never repeat across a single deck board. The leading competitor's pattern repeats every 37-3/8 inches. That's up to 5 times on each 16 ft. board.

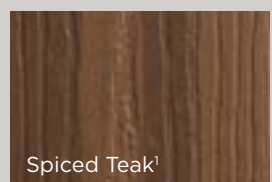

U. is for Unique deep grains. Character comes from within. With EverGrain, that means putting grains deep down into the board. The result is the authentic look of real wood.

E. is for Exclusive. EverGrain's exclusive compression molding process offers a deeper grain and the random look of real wood.

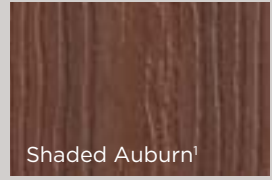

▶ See the distinctly T.R.U.E. look of EverGrain for yourself at EverGrain.com.

ENVISION A WHOLE NEW LEVEL OF BEAUTY AND PERFORMANCE.

Made with the same dramatic deep grain beauty¹ and performance-enhancing core materials as EverGrain® Composite Decking, EverGrain® Envision® features an added layer of protection, bonded in the compression process, for low maintenance² and resistance to delamination. The outer layer of EverGrain Envision is also specially formulated to create a low-sheen appearance for more natural wood beauty. The product comes with a 20-year Limited Warranty², including a 5-year Full Start Period and a 20-year Stain Resistance Limited Warranty.

¹ Before making your purchase, view several full-length boards. Representation of these colors is as accurate as modern technology will permit. As with any composite product, color variations will occur. View several full-length pieces of material prior to final color selection and installation. Colors will usually weather to a lighter shade within the first several months of exposure to the environment.

² To obtain a copy of the most current version of this brochure, the care and cleaning instructions for details on required maintenance, the Limited Warranty and/or the product installation instructions, visit tamko.com or call 1-800-641-4691.

³ Colors may vary. Certain colors and products may not be available in your area. Please reference TAMKO's color chart, visit us online at tamko.com or contact TAMKO for further information.

Compression molding allows for deep grain wood-like texture and more random patterns for a more natural wood look

Four true, multi-shaded **color options**, designed with color highlights that emulate the textures and **natural color variations** of real wood, further enhance the natural beauty

Compression process creates a **physical bond** between the outer layer and core board to help prevent delamination

Bonded outer layer adds strength for everyday life

Same performance-enhancing EverGrain core materials provide **outstanding strength** and consistency

Rustic Walnut¹

Complement the look with color-matched EverGrain® Envision® Composite Deck Screws.

EverGrain® Envision® is available in grooved and square edge boards.

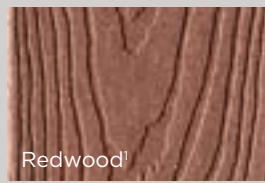

EverClip™ hidden deck fasteners are the fast, easy and secure way to install EverGrain® Envision® grooved boards.

**THE DEEP GRAIN BEAUTY IS
AS ATTRACTIVE AS EVER.**

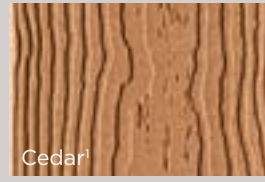

EverGrain® Composite Decking has earned the admiration of homeowners for the characteristic deep grain beauty¹ and low maintenance² it provides. Compression molding is what makes the EverGrain difference, creating a strong board with outstanding performance and consistency—while enabling the use of more patterns for more random wood beauty. EverGrain decking requires no staining or painting and comes with a 20-year Limited Warranty², including a 5-year Full Start Period.
